The meeting was called to order at 2:10 p.m. by Rep. Adair

1. Introductions

Introductions were made by those who led the tour of the Capitol and the surrounding grounds:

Dave Hart, Capitol Preservation Board
Joe Ligor, DAS, Capital Facilities Manager
Solveig Coles, Visitor and Convention Bureau
Jeff Johnson, Archives

2. Tour of Capitol

Solveig Coles led the committee on a tour of the Capitol which included the first floor, Governor’s office, Gold Room and the Rotunda. She gave the committee historical information on the construction of the Capitol and Dave Hart explained necessary renovations to the committee.

The tour continued to the roof of the Capitol where Dave Hart continued to point out deterioration of the building and necessary repairs. The Capitol needs extensive seismic renovation and projected solutions were presented to the committee. After touring the roof, the committee climbed to the balcony at the base of dome and observed the interior and exterior of the dome where seismic work needs to be completed.

3. Tour of Capitol Grounds

Dave Hart told the history and location of Mormon Battalion and Vietnam Veteran's monuments and their part of the master plan of the Capitol grounds. He pointed out to the committee the proposed location of additional parking and new buildings that will need to be in place for renovation of the Capitol to occur.

4. Tour of Archives and Heat Plant

Jeff Johnson, Archives, gave a tour of archives and informed the committee of the limitations presented by the current building. Joe Ligori, Capital Facilities, showed the committee the heat plant and explained that it serves the Capitol, State Office Building, DUP Museum and Archives. The Heat Plant is at full capacity now and could not handle any additional buildings.

The meeting adjourned at 4:55 p.m.
